Time to Bury the Dead.

(By Federal Wireless Telegraph.) CONSTANTINOPLE, Turkey, November 19.—(Special to The Advertiser) — The first break in the short but terrifie war by which the Balkan States have broken the power of Turkey in Europe came today when the Bulgarians besieging Constantinople defenses at Tehatalja agreed to an eight-hour arm-

istice to bury the dead, attack on the Tchatalia defenses dur-ing the last few days has been awful, Corpses lie thick within and without lines from the Black Sea to the Sea of Marmora, and a cessation was seen to be absolutely necessary unless both the contending armies were to be swept by pestilence. Before such the carnage of bullet and bayonet would fade into insignificance.

No estimate has been made public here of the number who have fallen \* in the continuous fighting along the Tchatalja lines, but there is no doubt that from 30,000 to 40,000 men are dead \* and wounded on both sides, and it is than probable that will be exceeded.

garians have met a series of setbacks, and, while most government reports have hitherto been too rosy, this last account is credited, and is given great weight by the proclamation of the brief armistice.
It is believed here that there is still

a possibility that the Bulgarians may be checked by some arrangement be-fore the Servians come up. If such an arrangement is not reached and the Turks decide to resist to the end little doubt is felt that their defense can end only in disaster, and that the allies, sooner or latter, will enter Constantinople.

ATHENS, Greece, November 20—
(By Associated Press Cable)—Reports rought here by fleeing refugees from Turkey, announce that the Turkish soldiery recently set upon the Christian population of several of the smaller cities and massacred them wherever found. The bodies were left lying in the streets of the towns by the friends and co-religiouists, who feared a similar fate if they appeared to take any interest. The corpses were uncared for for days and the dogs ate them unchecked.

Arrangements have been made to file a formal protest against such outrages with the Powers. The American minister to Greece has been asked to present the matter at Washington, although, so far as known, none of the Christians who lost their lives were Americans. It is believed that the out-rages are a result of the Holy War the Turkish priests have been preaching.
